Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

  
 Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The differences between the instant claims and the cited references were discussed, namely, that the prior art does not teach or suggest the combination of a polymeric cationizer and a polymeric drainage aid employed to modify the starch. Although the prior art suggests what could be considered as a polymeric cationizer and as a drainage aid, the references do not teach or suggest a combination of the two. Upon further review of the prior art and a response by Applicants to the outstanding Office Action, all pending claims will be reconsidered..
